EXPERIENCE

Product Designer (Contract)

Plaid Again Design Agency, San Jose | July 2025 - September 2026

- Designed web, application, and print assets for ConnexPay, including white papers, webinars, banners, and business cards, working directly with the client to maintain design-system consistency.
- Led the redesign of Tara Mind's corporate health app to meet WCAG 2.2 AA standards, while updating the design language.

Web Developer/Product Designer (Contract)

Albacore Incorporated, Philadelphia | January - August 2026

- Built out component systems and design elements for a full website rebrand.
- Developed work for marketing assets across their reach, from a multi-purpose deck to marketing applications across the board.

Web Developer/Product Designer (Contract)

Tex Software, San Francisco | January - March 2026

- Led UI design for a website redesign spanning 20+ pages, built on a reusable component system.
- Designed product shots for Tex Intel, a search engine for finding heavy machinery, and tailored paths for six customer audiences ahead of CONEXPO-CON/AGG.

Web Developer/Product Designer (Contract)

Poseidon Aerospace, San Francisco | October - November 2025

- Designed and launched a full website rebrand in 4 weeks, alongside an $11M funding announcement.
- Worked with all touch points of the company, creating a user experience for their target audience.
- Developed the website and created a robust system to be expanded as the company grows and products change.

Product Designer (Internship)

SambaNova Systems, Palo Alto | June - September 2024

- Designed UX/UI for SambaStudio and SambaCloud, including login visuals, internal AI system workflows, and iconography.
- Gained hands-on experience with enterprise AI tools, working on projects with lasting impact that continue to shape current products.

RECOGNITION

Framer: The Best Startup Websites on the Internet

Featured | 2025

The Poseidon Aerospace website was featured in the Framer Gallery as a showcase example for other creators.

UX: Fest SLO Designathon

Second Place | 2025

Worked with a team of four in a 24-hour design challenge, competing against 25+ other teams.

EDUCATION

California Polytechnic State University

BFA Art and Design with a concentration in Graphic Design
San Luis Obispo | 2025

DESIGN TOOLS

Figma

Designing user interfaces using library and custom elements, task flows, and interactive prototypes.

Shapr3D

3D product design and prototyping using Shapr3D, turning sketches into precise, manufacturable models.

Adobe Photoshop

Photo retouching, color correction, compositing, masking, and mock-ups.

Adobe Illustrator

2D vector-based digital illustrations and graphics.

Adobe InDesign

Page layout and digital publishing using styles, parent pages, and CC libraries.

Adobe Premiere

Video editing, color correction, audio editing, and special effects.

DEVELOPMENT TOOLS

Claude Code, Gemini, and Topaz

Using AI-assisted tools to accelerate production workflows and bridge design and implementation.

HTML, React, JavaScript, CSS, and p5.js

AI-assisted front-end development: reading and working in codebases, and building responsive layouts. Creative coding with p5.js for generative visuals and interactive, webcam-based effects.

Unity and C#

2D game development focused on player movement, physics, animations, and interactivity. Experienced in scripting responsive UI.

Framer

Interactive websites and responsive layouts with Framer's visual and code-based tools.
